OBJECTIVE

To secure a position in a dynamic organization where I can contribute my foundational IT skills while gaining valuable hands-on experience in a professional environment.

EDUCATIONAL BACKGROUND

Pangasinan State University- Bayambang Campus
Bachelor of Science in Information Technology
2021- 2025

SKILLS

- Beginner to mid-level proficiency in various photo and video editing tools such as Photoshop, Lightroom, Premiere Pro, PowerDirector, Capcut and Canva.
- Mid-level proficiency in UI designing tools such as Figma and Adobe XD.
- Beginner to mid-level proficiency in Word, Excel, and PowerPoint.
- Mid-level proficiency in Google Spreadsheets.
- Beginner-level experience in HTML, CSS, and JavaScript for creating basic websites.
- Basic knowledge of Unity game engine and C# programming for game design and development.
- Mid-level proficiency in Google Sites and Google Looker Studio.
- Basic knowledge of software troubleshooting and hardware components; capable of assembling and configuring computer parts.
- Has knowledge and experience in the field of Data Entry, Monitoring and Management.

EXPERIENCE

Intern

Department of Economy, Planning and Development – SPCAR Division
February 2025 – May 2025

- Assisted in organizing a Stakeholders' Consultation-Workshop, serving as part of the technical staff responsible for audio-visual setup and support.
- Handled data entry, monitoring, and management tasks to support the division's administrative and planning operations.
- Re-designed the division's internal portal, improving the overall user interface and adding new features to enhance functionality and user experience.
- Designed event materials including tarpaulins and certificates, ensuring visual consistency and professional presentation.

Capstone Thesis – Game Development
Pangasinan State University - Bayambang Campus
December 2024 – July 2025

- Created a roadmap and designed a high-fidelity wireframe for game development.
- Designed a UI backgrounds and sprite assets such as 2D buildings, buttons and characters.
- Animated the 2D characters and NPCs using Photoshop and DragonBones.
- Handled creating C# scripts for our game functionalities such as character movements, game mechanics, and multiplayer features using Photon.

Digital Marketing Assistant – Independent Contractor
AscendyX – Digital Marketing Agency
January 2025 – August 2026

- Developed and managed GHL automations (workflows, triggers, pipelines)
- Developed websites through Wordpress, Squarespace & custom coding.
- Designed marketing graphics and social media assets in Canva
- Created short-form video content (Reels) optimized for engagement
- Supported lead generation, outreach, and campaign execution • Implemented revisions and maintained brand consistency
